Retainer Contracts

More cost effective for long term projects

A retainer simply means I am contractually arranged to shoot a fixed amount of photography for your business each month.

The level of service can be tailored to suit your requirements.

Below are the most popular options currently exploited by Avant Commercial clients.

As above, all packages include digital delivery via Dropbox, WeTransfer or similar. Travel to London, Surrey, Sussex, Kent, and most other Home Counties is included. Outside this zone, travel is charged at cost. There is a minimum of 3 months contract.

Option 1

£1200/ month 4 days/16 onsite hrs per month
All edited images from shoots

Example: A staff headshot session a 'Day in the Life' shoot every month. Plus, a product shoot and a portfolio of Hero images - fresh content each month for your website and social media - with nothing to do but book the shoots in the diary.

Option 2

£600/month
2 days/8 onsite hrs per month
10-20 images per month

Example: One staff shoot or day in the life every month, plus one hero image shoot each month.

Option 3

£250/month
½ day/4 onsite hrs per month
10 images per month

This is like getting a mini Day in the Life shoot for your business each month. The Day in the Life project produces a portfolio of images to tell the story of your business on your website and social media.

Your half day must be on one day and cannot be split across multiple days. This is a great option to utilise for smaller projects.
